

Russell Dudek

AI Workflow Enablement & Adoption Analyst

Pittsburgh, Pennsylvania
russelldudek@gmail.com · linkedin.com/in/russelldudek
<https://russelldudek.github.io/Volto/>

Operator-technologist who turns emerging AI capability into adopted work.
Hands-on in workflow design, structured context, human review, governance, evaluation, training, and operating mechanisms.

ROLE-ALIGNED CAPABILITIES

ChatGPT & LLM workflows	Prompt and context design	Workflow automation
Human-in-the-loop governance	Use-case prioritization	Adoption & enablement
Evaluation and iteration	Cross-functional playbooks	Operating metrics

EXPERIENCE SELECTED FOR THIS WORK

Vape-Jet

2025-Present

Director of Operations

- Leads AI-first operating transformation across production, purchasing, quality, customer success, support, engineering issue flow, ERP/Odoo, Jira, HubSpot, Slack, telemetry, and AI-assisted workflows.
- Connects factory, field, customer, and machine-fleet signals into prioritized work, earlier risk detection, cleaner handoffs, dashboards, standard work, training, and accountability.
- Works directly in a software-enabled robotics and machine-vision environment with approximately 1,000 fielded robots informing support and operating feedback loops.

DudeWorth

2017-Present

Founder / AI and Automation Advisor

- Develops AI-readiness and opportunity frameworks that assess value, feasibility, data readiness, governance, adoption burden, reuse, and time-to-value.
- Designs agentic workflow patterns using structured context, retrieval, AI agents, human judgment, escalation, decision records, evaluation, and governance rails.
- Advises on AI-enabled operations, logistics technology, automation, network analysis, and workflow design.

Amazon

2014-2018

Operations Management / Site Leader

- Led launch and execution for Amazon Prime Pittsburgh in a 24/7 customer-backward environment supporting approximately five million second-day orders annually.
- Built leadership routines, labor planning, throughput visibility, escalation paths, standard work, and operating mechanisms.
- Applied Lean and Gemba practices across safety, quality, throughput, customer experience, and team engagement.

MECHANISMS I BRING TO THE ROLE

Workflow intake

Frame value, sources, data boundaries, retained human judgment, and success measures before building.

Prompt and context contract

Structure instructions, examples, source use, exception behavior, escalation, and evaluation.

ADDITIONAL TECHNICAL AND OPERATING DEPTH

Compunetics2000-2013

Director of Operations and Engineering Management

- Progressed through R&D program management, production management, strategic acquisition, operations management, and director-level leadership.
- Led engineering, manufacturing, quality, customer delivery, and complex technical programs in advanced electronics and high-reliability environments.
- Built quality systems, standard work, root-cause practices, performance measures, and process controls.
- Collaborated with DoD, CERN, Intel, and AMD; published industry articles, delivered technical talks, and participated in the HyperTransport Consortium.

Cardinal Building Products2021-2023

Regional Director

- Built the company's first remote regional operation.
- Modernized distributed customer, CRM, commercial, fulfillment, logistics, digital marketing, SEO, and online-buying workflows.

ZeusVu2018-2022

Chief Pilot, Autonomous Systems and Aerial Data Operations

- Led regulated drone operations across medical, energy, logistics, real-estate, and restricted-airspace contexts with a 100% safety record and no FAA incidents.
- Developed TensorFlow-based concepts for automated aerial inventory and computer-vision-enabled field intelligence.

ENABLEMENT AND MEASUREMENT

Enablement loop

Pair demos with practice, job aids, office hours, champions, and repeated use in real work.

Adoption scorecard

Connect activity to workflow change, quality, economics, trust, ownership, and learning speed.

IEEE2012-2016

CMPT and EDS Pittsburgh Chapter Chair

- Led regional technology programming connecting industry, academia, STEM outreach, electronics, manufacturing, and emerging technology.
- Organized conferences, seminars, business tours, and technical programming.

EDUCATION

University of Pittsburgh

Bachelor of Science
Academic grounding in materials science, physical chemistry, and biology-related studies.

SELECTED CREDENTIALS

Google AI Essentials
IBM Enterprise Design Thinking Practitioner
Six Sigma Certification

TECHNICAL TOOLKIT

Agentic AI · LLM workflows · RAG patterns · Human-in-the-loop design · Python · SQL · JavaScript · TensorFlow · Tableau · ERP/Odoo · Jira · Confluence · HubSpot · Slack

HOW THIS MAPS TO VOLTO

Direct workflow execution, operating discipline, technical translation, training, and governance applied to useful, safe, repeatable, measurable ChatGPT enablement.

DIRECT CONTRIBUTION PROFILE

BUILD: use-case frames, workflow patterns, pilots, evaluation criteria, playbooks.
ENABLE: demos, practice, office hours, champions, standard work.
GOVERN: sources, boundaries, checkpoints, ownership, escalation, review.
MEASURE: adoption depth, cycle time, completeness, rework, reuse, effort avoided.

CANDIDATE VISION
